I used to love this game when I was younger and I am so happy that it got converted to steam. I completed every level within a week of when I got this because I was so excited.. only for **HARDCORE** gamers.. [EN] No matter how old you are u2013 this game is for everybody. Itu2019s quite old hence very low system requirements. Nice music and quite good graphics, though in 4:3 format. Forty-eight levels, of which at least a few is really hard to complete in the best time. Sixteen awards, some of which are quite difficult to accomplish so the best way is to find some clues on the internet. If you want to get all awards and beat all levels in the best time you must plan most of them very well and prepare for many frustrating repetitions. Highly recommended especially on sale.
