English,French,Italian,German,Japanese,Korean,Polish,Russian,Simplified Chinese

I'm not feeling too much buyer's remorse because I bought this using Steam wallet money I earned from selling trading cards and inventory items, but I still can't really get behind locking day-one-ready content behind a separate paywall. There's nothing all that special about the content in this pack. It's stuff that should just be in the game by default. Keep your dosh to yourself.
