About as classic Tron as you can get without the license. A fun tank-based game that uses the aesthetic established by Disney's movie to great effect.. Honestly one of the funniest games on Steam.. yeaaaaa.... smells like it will be great :). shoot angels to save the world, this game is satanically fun. Satazius is a side scrolling shmup in the style of Gradius and R-Type. So it has a level design unlike most shmups these days. The weapon system where you have a your primary weapon and two secondary weapons. The secondary weapons you can switch during the game. You shoot both the primary and the secondary weapon at the same time. So you got quite some fire power. But the game is designed around it. You also got a special weapon that you need to charge. And you can collect upgrades for your weapons. The controls are good and there is controller support. The artstyle looks good although it's a bit generic. One thing I didn't like is that the game has a very low resolution. But you can play it full screen or windowed. The music also doesn't do it for me. But if you are looking for a shmup Satazius is a great pick.. Challenging and in the same vein as Balloon Kid, provided myself with many hours of entertainment.. Bought it Full-Price to support the Devs cause of their good decision to decline f*cking Epics Exclusivity Offer. Good start against Epics Exclusive! Keep it up!

"The famous quote of "Do unto others as you would have them do unto you" and also "No policy" is something we take very seriously all the time during the development since the early days. Things like pricing \$30 instead of \$29.99, no sales, no micro-transactions, game stability over features, no selling-out to big companies that would use the game as cash grab while destroying the brand [{ *cough cough* EPIC GAMES *cough* }] (we actually declined to negotiate "investment opportunities" like this several times already, no matter what the price would be), the same would be when it would potentially come to any exclusivity deals, which is its own subject..."

Keep it up and #EPIC. the music is very cooldowning the stress . i like it very much , sadly it's very short also . pretty nice game to relief stress during homework.

This game is okay plus the 5k achievements is okay but I would never buy this game alone and this math game isn't that hard. This is okay for kids first learning about math.. nostalgic game seems like weird mario. Lords II and Knights and Merchants are the best games in my childhood.

Someone, pls, do a remake for this game, and take my money. I will not recommend the game at its current state since the game lacks basic things and is not optimized well. This game is sadly littered with bugs.

Whilst the concept is factastic, the overall gameplay and execution is really poor.

The developers don't seem to be adding to the game in the near future and there are no bug fixes.. Great game, love the concept I got this during the 2017 summer sale for about \$6

Definitely worth the price there

The only thing is that the gameplay can become a little stale after a while

You are constantly doing the same thing every mission. Hopefully the devs change some things up

But overall good game!. OH MY GOD I HATE THIS GAME! Now that I have that out of the way. I've never been more off to have to play a bonus chapter then this game. OK. Pros. Hackney B movie storyline. It makes sense considering the plot. Puzzles. Lots of Puzzles. Puzzles you won't find in another HOG game. Fiendishly difficult puzzles.

The cons. Glitches. Lots of emm. You clicked on that section and it closed out. If you come back you might be able to click on it again. There will be nothing there of course. You'll just waste your time thinking you missed something. The clicking on the thing basic gameplay of any of these types of games is a little wonky. So be prepared for that. Crap map. Only shows the basic areas. NOT the parts of them. Not a huge hassel but a bit annoying. Lastly. THE #@R\$@#@#\$ PUZZLES. Some of them are really good and make sense. SOME. Others? Well I hope you like randomly clicking on things with other things cause that's what your doing for half this game. Need to get rid of a wall? Welp I better use my @#%\$@#\$@#\$ Pirana on a stick to get rid of it. I couldn't make that up if I tried. It would almost be a good game if it wern't for the glitches and puzzles. Also it's not really a HOG. It more puzzles then HOG honestly. I honestly wish this was better but it's not. DO NOT BUY. If you get it for free or in a bundle, fine. But don't get this game for itself. It's not worth it.
